- ✓ SINGLE LAYER MSL DROPSTITCH
- ✓ LIGHT AND EASY TO CARRY
- ✓ 11' x 30" x 6"
- ✓ WIDE BODY FOR GREAT STABILITY

SIPABOARDS

About Neo Drive:

The SipaBoards Neo Drive is a bold step into a new way of paddling. Our lightest board ever will bring paddling close to anyone. Perfect fit for beginners, light paddlers and those who are in it for the joy. Wide, stable and light, the 2022 Neo is just a push of a button away from transforming into a jet boosted board, assuring unmatched stability and course control. Equipped with carry handles and a carrying strap it is easy to transport, making it a great fit even for young paddlers. Self-inflating, super-light, with all of the benefits that the SipaDrive offers, the Neo Drive is a power pack of fun times.

Board description:

The Neo is built for easy riding, enjoyment and mastering the rider's paddling technique. Wide bodied with a softly curved tail, the board will offer ideal support to paddlers under 225 lbs. The Neo is a wide bodied 11' board, designed for recreational use and pleasure paddling. The board is equipped with front and back carry handles, a carry strap, 3 D-rings (on the sides and rear mounted) and load straps in the front.

The heart of the Neo Drive is the SipaDrive® - SipaBoards' patented and CE certified fully-integrated Paddle Assist System. Designed to offer a safer and enhanced riding experience, it provides additional control over the board and ensures the rider ultimate control in varying paddling conditions. The **built in compressor** will inflate the board to **optimal pressure in 5-7 minutes**. Connected to a Bluetooth® remote control that can be mounted onto any paddle, the rider can start the inflation cycle, regulate the speed of their board and turn the LED lights on and off for a unique night time paddle experience. The SipaDrive is powered by **144 Wha battery** in a watertight case, offering **up to 4 hours** of operation and speeds **up to 5km/h**.
